The Honorable James H. Webb, Jr., has been a combat Marine, committee counsel in Congress, Assistant Secretary of Defense, Secretary of the Navy, U.S. Senator from Virginia, Emmy-award winning journalist, filmmaker and author of 10 books.

Webb graduated from the Naval Academy in 1968, one of 18 midshipmen to receive a special commendation for “outstanding leadership contributions,” and was the Honor Graduate, first in his class of 243 lieutenants, at Marine Corps Officer’s Basic School. One of the most highly decorated Marines of the Vietnam War, at age 23 as a rifle platoon and company commander in Vietnam he was awarded the Navy Cross, the Silver Star Medal, two Bronze Star Medals with combat “V” and two Purple Hearts, and was the most highly decorated member of the Naval Academy’s historic class of 1968.

Webb graduated from Georgetown University Law Center in 1975, receiving the Horan Award for excellence in legal writing, then became the first Vietnam veteran to serve as a full committee counsel in the US Congress, serving from 1977 to 1981 as assistant minority counsel and then full counsel to the House Committee on Veterans Affairs. In 1982, he led the fight to include an African-American soldier in the Vietnam Veterans Memorial.

Appointed by President Ronald Reagan, Webb was the first-ever Assistant Secretary of Defense for Reserve Affairs in 1984, and in 1987 the first Naval Academy graduate in history to serve in the military and become Secretary of the Navy. At the Pentagon, he also was a member of the Armed Forces Policy Council and the Defense Resources Board.

He was a fellow at Harvard University’s Institute of Politics in 1992.

Webb served six years representing Virginia in the United States Senate. While in the Senate, in 2007 Webb delivered the response to the President’s State of the Union address, and served on the Foreign Relations, Armed Services, Veterans Affairs, and Joint Economic committees, including four years as Chairman of the Armed Services Subcommittee on Personnel, and of the Foreign Relations Subcommittee on East Asian and Pacific Affairs.

He wrote and guided to passage the Post-9/11 GI Bill, the most significant veterans’ legislation since World War II. Despite strong opposition by the Bush Administration and Republican leaders, Webb conceived and implemented a bipartisan approach and accomplished the passage of this landmark legislation in only sixteen months. He also was the leading voice in the United States Congress on behalf of reforming America’s broken criminal justice system, and co-authored legislation which exposed \$60 billion of waste, fraud and abuse in Iraq and Afghanistan wartime-support contracts.

This will give us more nominees to choose from and ensure that only the best would reap the recognition.

On the district level, I wish to thank all Manila Rotarians who joined me in attending the District 3810 24th Mid-Autumn Mooncake Fellowship hosted by the Rotary Club of Chinatown Manila last September 29, 2018 at the Golden Bay Seafood Restaurant in Pasay City where we were treated to a sumptuous Chinese feast with all the excitement of the mooncake dice game. Today, we are delighted to have Former US Senator James Webb, Jr. in our luncheon meeting where we are joined by many Rotary clubs and other organizations. Many well-known personalities have confirmed their attendance.

Let us all do our share in making this centennial a Rotary Year to remember as I exhort everyone to participate in our centennial projects. Great things in Rotary are never the works of a single individual, but, by a team of Rotarians working together towards a common goal. This is a colossal undertaking necessitating colossal efforts. Indeed, the best is yet to come.

In ONE CENTURY ONE MISSION ONE ROTARY, I remain.

POSITIONAL VERTIGO

Elias D. Adamos, M.D.

When you feel like you're spinning or the room is moving around you, you're experiencing a classic sign of vertigo. The most common type of vertigo is positional vertigo or benign paroxysmal positional vertigo (BPPV). Positional vertigo is a bothersome problem but it is not a serious one, except when it increases the chance of falls or accidents.

What causes BPPV?

Although often there is no known cause of vertigo, the determination of dizziness in vertigo is usually caused by some issues in either the inner ear or the brain stem. BPPV also has been associated with migraines.

Risk factors in vertigo

BPPV is more common in women than in men. It occurs most often in people who are 50 years old and older. An incidence or history of head injury or ear injury makes one susceptible to BPPV. Recent ear infection and ear surgery are factors that can bring about BPPV.

Do you need to see your doctor?

If you experience repeated episodes of unexplained vertigo or dizziness, it's time to see your doctor. If any of these symptoms are associated with your vertigo, go to the hospital: sudden and severe dizziness, prolonged dizziness, double vision, hearing loss, trouble in speaking, disorientation, leg or arm weakness, severe headache, numbness, falling or the inability to walk, and fever.

Home remedies

Your doctor might teach you some maneuvers that you can do at home in order to handle your vertigo. Most of the known maneuvers are effective.

Ginger tea is a known herbal treatment for vertigo. Stir a teaspoon of ground or crushed ginger into a cup of warm water to make a spicy tea. Drink one cup of ginger tea everyday to address your vertigo.

Ginkgo biloba that is available in tablet form in health food stores is a powerful natural remedy to calm vertigo. Take 120 mg tablet daily to keep BPPV symptoms under control. Ginkgo biloba also improves blood circulation to the brain resulting to good brain oxygenation.

Traditional Chinese medicine belief that considers the concept of yin and yang energy as the basis in the treatment of common ailments, recommend strawberries as the fruit that can help relieve or head off dizzy spells. Chinese traditional doctors believe that the fruit has an impact in the body's energy flow.

Dear Mr. Jesus M. Pineda,

We would like to invite you and your Rotarians to our Rotary Club of Taipei 70th charter on December 3, 2018 at the Mandarin Oriental Hotel in Taipei. It will be our honor to have our sister club Rotarians to join us for this special celebration. It will be a monumental event for our club as 70th year is a big birthday in Taiwanese tradition. I will be also be the first female president of our rotary club in 70 years.

Rotary Club of Taipei is the first club in Taiwan, ROC, which was chartered on October 9, 1948 by C.K. Yen, who was the former President of the Republic of China. We have around 100 members including honorary members from over 20 nationalities. Our club is extremely proud that our own member, Gary Huang, was the Rotary International President 2014-15.

We are very honor that our own PRIP Gary and the Rotary International President Elect Mark Maloney will be joining us on this special occasion. We hope we will also have the honor to have you and your Rotarians as our guests for our 70th charter.

Please kindly confirm your acceptance for the event. We have secured a special room rate with the Mandarin Oriental Hotel. Please contact our club for any question or help with arrangements. We hope to see you in Taipei soon. Thank you for your consideration.

Dear President "Susing",

The 49th Anniversary Fund Raising Ball of Rotary Club of Kowloon East on Approach of Golden Jubilee

Next year will see the Rotary Club of Kowloon East joyfully laying its milestone of 'Half-a-Century in Service'. Our 49th Anniversary Fund Raising Ball this year will hence be an auspicious moment to welcome the Approach of Golden Jubilee!

The excitement in this regard has inspired our veteran Rotarian, Mr. YIU Ching-on, to shoulder the chairmanship of the Organizing Committee for the Ball this year. Such a challenging mission signifies Mr. YIU's eventual agreement to succeed the office of President Elect, only almost four decades after he became Rotarian! What an extra ground for our celebration this year!

May I appeal for the kind attendance of your goodself and other members to share our joy and fun at our 49th Anniversary Fund Raising Ball to be held on Monday 3 December 2018 at the Grand Hyatt Hong Kong, 1 Harbour Road. We would be grateful if you could render us a congratulatory message for the publication of corresponding programme book. A welcome dinner will be hosted for your visiting delegation on Sunday 2 December 2018 at a venue to be decided. We shall soon address you separately asking for detail of your delegation and presenting the relevant information on hotel accommodation. Your support would be greatly appreciated!

Yours in Rotary,

The Search for The Outstanding Workers of the Republic (TOWER) Awards was founded in 1975 by the Rotary Club of Manila as an annual search for outstanding "blue collar" workers of the country. Subsequently, it included in its coverage "white collar" (non-supervisory) workers. It aims to recognize the contributions to economic development of the legions of skilled workers who constitute the backbone of our country's manpower capacity. The awards program transcended the confines of a Club's concern because of its nationwide reach and significance in uplifting the Filipino workers' morale and social status leading to greater prestige at the workplace – to the entrepreneur / employer and the colleagues, to the family and the community while enhancing individual career opportunities and promoting industrial peace.

Innovate or We're All Dead

The line of Joyce Kilmer in her poem Trees, "Only God can make a tree" is one good motivation to plant trees. Imagine, you're a god if you are able to grow one or many trees. Another saying "You're a complete man only when you have sired a child, written a book and planted a tree". These incentives to plant trees were the common reasons why people plant trees till we realize there is global warming in our midst. Now, we are in a hurry to plant trees to fight it. There is also a Chinese saying, "the best time to plant trees was 100 years ago. The second best is Now". But the sad thing about tree planting is, it's not as easy as you plant now and wait until it grows tomorrow. You have to take care of it, even more than the care you give to an infant which are: feed, bathe, allow him/her enough sleep and keep him/her warm and dry. With these for sure, he/she will survive and grow to be a healthy boy or girl. But, these do not apply to trees. Remember, the trees are exposed to all kinds of elements: the rain, sun, typhoons, drought, pests, roaming animals or even destructive humans. Hence, if you don't take care of them with double the care you give to an infant, surely they will not survive. In order to get better survival rate, seedlings are better planted during rainy season. If your farm happens to be off the road, which is normally the case, going there would entail walking on dirt or muddy pathways or even steep mountains. You'll even be caught by rains if not typhoons visiting and caring for the trees. So, if you are a city guy not used to farm life, chances are, you would not like it. It's nice to say I planted trees, but it's nicer to say 'these are the trees I planted years ago'. To grow these trees they need care and maintenance after planting. If they are not maintained, surely, they will not survive. For lack of these, most, if not all tree planting projects in recent memories failed miserably. Modesty aside, my experience in tree planting has been a happy one though, because, not only my 20 years of experience has been paying me dividends but, also, the innovative techniques we are adapting are working. One of the latest one's is the tree guard that protects the trees from invasive grasses, vines and other weeds. It's made of plastic, smooth and glossy enough that weeds are prevented from crawling into the tree it is guarding. Weeds and vines will just slide on the surface of the plastic materials. To control its cost, we are using plastic materials (disposable type which can be recycled) that can last for 6 months only but that is just enough time for the seedlings to grow to their survival stage. For gmelina trees, 6 months is enough to grow at least 4 feet in height, tall and strong enough to withstand against their natural enemies and increase its

chances to survive. In our experience, this tree guard doubled the survival rate of trees as the needed monthly maintenance is minimized. The Centennial Committee on Tree Planting believes this will revolutionize tree planting in the country as constant clearing of the trees' surroundings after planting is not necessary since the trees are protected from weeds until it grows to survival size. A lot of money and efforts have gone the drain on tree planting projects in the recent past. Rotary Club of Manila, through its creative members, should share their time and minds in pursuing effective and innovative ways of regreening the country, saving a lot of resources in the process. There is a saying, 'Innovate or Evaporate'. With trees they surely don't evaporate, they just die along with the projects that plant and finance it! For me, may I say, "Innovate or we're all dead!"

TOWER AWARDS

Latest Update:

In a meeting held last September 26, 2018 with project partner People Management Association of the Philippines (PMAP), the club agreed to extend the deadline for submission of nominations from September 30, 2018 to October 30, 2018 in response to numerous requests from companies which were unable to complete documentation to meet the September 30, 2018 deadline. With the new deadline, the committee expects more nominations to be submitted. Pre-screening of entries will be undertaken by middle of November 2018 to December 15, 2018.

Dear Fellow RCMers,

As you well know, our Centennial Year is upon us. In the past few years leading up to the present, your club leadership has planned and prepared several projects and events befitting this milestone in the history of our prestigious club. During the Town Hall Meeting last August 9, 2018, these activities were presented and broadly discussed. The responses of our members afterwards were inspiring. They want to do their share in making our centennial celebrations truly memorable, not only for RCMers but also to all Rotarians of the Philippines and of Asia. Indeed, in various district functions recently, other Rotarians from all over the country have also expressed their enthusiasm in joining us in the celebration of 100 years of the Rotary movement in this part of the world. They are just waiting, in their own words, for the Rotary Club of Manila to lead them.

It is it time therefore, for us to take the challenge of leading our fellow Rotarians. And for us to do this effectively, the participation of each RCM member is needed. Attached is the list of our centennial committees and their projects. Also provided is the Program of Activities for the Centennial Week. I urge you to volunteer your participation in any of the activities. Together, we can attain greater achievements for our club!

Please indicate the committee(s) / event(s) that you are joining.

Yours in Rotary,

Pres. Susing Pineda
