PRESIDENT'S CORNER

Dear Colleagues in RCM,

With the blessings of the Almighty, my near fatal moment a few days back became my fortitude and my rock.

Our club is our home. The camaraderie we forge along the way become the brothers who have placed our club in a revered stature in the Rotary world. Just like any other home, the years may bring fissures and we find ways to seal them. Ours is not a perfect organization yet we continuously strive towards perfection. With the passing of time, we evolve yet with a functioning system, we are assured of our norms.

In the coming weeks, our collective resolve will see us through. Our system is in place and the wheels of fate will assure our continuance. Let us reflect on our glorious past and the ways of Rotary as we bring important decisions to life and assure a Rotary Club of Manila firmly anchored on the very foundations our forefathers laid for Service Above Self.

The future of our club lies in your hands. Stand up and be counted.

Your Servant President,

ROBERT LIM JOSEPH, JR.
President
RY 2020-2021

THE ROTARY FOUNDATION

AN INVITATION TO JOIN THE ROSTER OF PAUL HARRIS FELLOWS

July 14, 2020

Dear Fellow Rotarians,

An Opportunity has now opened doors for our club to be a 100% Paul Harris Club. With only US\$ 500.00 as a beginning contribution, you can now become a Paul Harris Fellow.

We have members who have risen to donor levels that have earned them significant point values. Our fellow members led by IPP Jackie Rodriguez, PDG Alex Cureg, IPVP Hermie Esguerra, PDG Rudy Bediones and PDG Obet Pagdanganan have indicated their willingness to share the points they have earned to allow Rotarians to be enrolled in the Roster of Paul Harris Fellows for only an initial contribution of US\$ 500.00 instead of the regular US\$ 1,000.00.

Contributions can easily be made by enrolling in www.rotary.org using your R.I. Identification Number. Once enrolled, you are allowed to learn Rotary, increase your circle of friendship and contribute conveniently using the website.

We, Rotarians, belong to a global family of service-oriented people who believe that our congregation is a means to share our blessings to the less fortunate communities globally. The Rotary Foundation is the funding arm of global humanitarian undertakings of Rotary International. It was formally named in 1917 and the first trustees were appointed after Rotary International President Arch Klumph proposed for the establishment of an endowment for the purpose of doing good in the world. The first grant of US\$ 500 benefitted the International Society for Crippled Children (Easter Seals). History marks the milestone projects of The Rotary Foundation such a scholarship for international graduate study,

the elimination of Polio worldwide, the initiation of a World Peace Forum, among others. Under the Rotary's 7 Areas of Service Focus, namely, Peace and Conflict Prevention/Resolution, Disease Prevention and Treatment, Water and Sanitation, Maternal and Child Health, Basic Education and Literacy, Economic and Community Development and lastly, Supporting the Environment, Rotary International and The Rotary Foundation have made themselves relevant to developing communities globally.

All these services would not have been made possible if not for the generosity of Rotarians, who voluntarily enlisted themselves to become members of The Rotary Foundation through a minimal contribution of US\$ 1,000.00.

We are currently working on a Global Grants for Covid-19 and other community-related projects. Your contribution will significantly improve the community living of our target beneficiaries.

For any assistance, please feel free to contact me.

Yours in the service of Rotary,

ROMEO THADDEUS LIAMZON

ROTARY HISTORY

Arch C. Klumph: The Father of The Rotary Foundation

For a man best known as the father of The Rotary Foundation, Arch C. Klumph was modest about his role in its creation.

In 1928, he listed three accomplishments that gave him “more satisfaction than any other contributions to Rotary” — and launching the Foundation wasn’t among them. Instead, he emphasized his role in writing Rotary’s Constitution in 1915, which he asserted “gave Rotary International its first centralized power and made all the Objects and fundamentals of Rotary universal.” He also took pride in establishing attendance reports and in being the first to insist on founding a European branch office of Rotary International.

Klumph was born in the small town of Conneautville, Pennsylvania, USA, on 6 June 1869. When he was a child, his family moved to Cleveland, Ohio, where he would become a founding member of the Rotary Club of Cleveland in 1911. As club president in 1913, he advocated for the club to build a reserve that would ensure its means to do future good work. This idea would stay with him as he moved on to serve Rotary in other roles.

Five years after he became a Rotarian, Klumph was elected to serve as Rotary’s president for 1916–17. Near the end of his term, at the 1917 Rotary Convention in Atlanta, Georgia, USA, he reminded Rotarians that “Rotary is at the present time entering a new era, demanding improved methods in administrative machinery, with which to carry out the splendid principles which have been laid down heretofore.” He defined six points of action, including the establishment of an endowment, which would later become The Rotary Foundation:

Arch C. Klumph, circa 1916

Klumph on the cover of the September 1916 issue of The Rotarian. In his message, he reminds members that "Rotary is bigger than any one man, than any board of directors."

“

Carrying on, as we are, a miscellaneous community service, it seems eminently proper that we should accept endowments for the purpose of doing good in the world, in charitable, educational or other avenues of community progress, or such funds could be well used for extension work.

”

Through Klumph's simple yet profound statement, the Rotary Endowment Fund was born. In 1928, the name formally changed to The Rotary Foundation, and a Board of Trustees was established, with Klumph serving as the first trustee chair from 1928 to 1935. Even after stepping down as chair, he remained dedicated to educating Rotary leaders and members about the importance of the Foundation and encouraging contributions.

Klumph died on 3 June 1951 at age 82, but his influence lives on through The Foundation.

Ex-NBI director Gierran is new PhilHealth chief

By: Darryl John Esguerra – Reporter / August 31, 2020

MANILA, Philippines — President Rodrigo Duterte has named former National Bureau of Investigation (NBI) Director Dante Gierran as the new head of the embattled Philippine Health Insurance Corp. (PhilHealth).

Defense Secretary Delfin Lorenzana confirmed this in a text message to reporters Monday night.

Lorenzana said the President announced Gierran's appointment during his meeting with the members of the Inter-Agency Task Force. Gierran will replace Ricardo Morales, who resigned last week as PhilHealth president and CEO due to his medical condition. Gierran served as NBI chief since his appointment in 2016. He retired in February and was replaced by Eric Distor who was named officer-in-charge of the NBI.

Morales, who was reportedly undergoing treatment for lymphoma, step down from his post after Duterte asked him to resign due to his medical condition.

Morales' resignation came at the height of investigations over the alleged systematic corruption within the state health insurance firm. Duterte has created an inter-agency task force led by the Department of Justice to probe PhilHealth officials over the corruption claims which were unearthed during recent congressional inquiries. Among allegations of corruption raised involve the procurement of alleged overpriced IT equipment; a supposedly questionable release of funds under the corporation's Interim Reimbursement Mechanism (IRM); and the alleged manipulation of the corporation's financial status.

Dr. Benito Legarda Jr.: A giant has passed away

By: Javier Galván *Philippine Daily Inquirer*
August 31, 2020

He used to say that he was not an historian, but he wrote some of the most interesting books on recent Philippine history. He used to say that he was not an architect, but he wrote one of the earliest and best essays on Philippine architecture. He used to say that he was an economist, but, indeed, he wrote "The Book" on the Philippine economy in the 19th century: "After the Galleons."

Benito Legarda Jr. (1926-2020) was a giant. He was a man of a bygone era but at the same time, the latest of his kind. Benito has been active and lucid till the very end of his 94 years of life.

Until the very eve of the lockdown, he had attended almost every single important cultural activity that happened in Manila. And once back in his home office he wrote the chronicle of the event and posted it on his Facebook. He had been for decades not only the most brilliant scholar but a shining star of Manila cultural life.

I have never heard "Beniting" (as his closest friends called him) talking about the pains of aging or about the nostalgia of the past as elders use to do. He loved life silently as very few did. He was always curious about what was going on in culture, in politics, in academic life, in society.

When he was already 90 he toured the world. He went to visit his daughter and grandchildren in the United States, then he moved to Madrid, where we had lunch together, and then he continued on to Bayreuth and Salzburg to attend their famous music festivals.

He and his late wife Lita were music lovers and great connoisseurs of the classic repertoire. There was no classical concert in Manila, especially the Manila Symphony Orchestra's, without his presence.

Ben, as friends from his younger years called him, knew about almost everything. They used to say, "Better than surfing or Google, ask Ben." Like José Rizal, Ben was a real Renaissance man, the latest of his kind.

Benito Legarda Jr., 1926-2020

Benito represented the excellence of being Filipino, the blend of the best of the ingredients of Filipino identity. He was very Filipino, but with Spanish and Chinese ancestry, who acquired education in American universities, at Harvard and Stanford, no less.

Last man standing

He belonged to the last generation of Filipinos that had Spanish not as an acquired language but as a mother tongue. He had a beautiful Filipino Spanish with a very rich vocabulary, a way of speaking Spanish that has practically died with him. (We must treasure more and more the very few remaining ones who speak and write such beautiful Spanish, as Guillermo Gómez).

Don Benito was always one of us at the Instituto Cervantes and Spanish Embassy. He attended every single lecture, sitting in the first row. When the lecturer said something funny, Benito would burst out in loud laughter. I experienced that myself the first time I met him in 1994, at the Mayflower building in Malate, when I was invited by Instituto Cervantes de Manila to give a lecture on Philippine-Hispanic architecture. I had just started to research on that topic. When right before my talk started I was introduced to Benito by the then director of Instituto, I panicked: I had read his fantastic essay on Ilocos churches.

SUNSHINE COMMITTEE

When talking to the audience I excused myself to dare talking on that topic at the presence of people that knew by far much more than me like Dr. Legarda. Then his laugh burst like thunder. I cannot say if that made me more confident or more scared. I have had the privilege to enjoy his friendship from then on.

During my first stay in Manila as Instituto Cervantes director (2001-2006) I would meet him almost every single Sunday afternoon at Rafa Ortigas' house in Wack-Wack. Rafa's generosity gathered a small group of friends that got together to have merienda talking of Philippine history and culture. I learned a lot from them, especially from Beniting, "un sabio" (a wise man).

Prodigious memory

His memory was prodigious until his very last day. In spite of aging he could remember any name, any book, any simple detail about things recently or remotely that had happened. It was unbelievable!

In spite of his talent and intellectual assets he was anything but arrogant or presumptuous. He was friendly, accessible and simple. I cannot forget an anecdote in one of the visits of Queen Sofia to her beloved Philippine Islands. She inaugurated an exhibit of paintings in the National Museum. "All of Manila" was there. Everybody tried to get close to the Queen to be photographed with her or in her surroundings. One high-ranking dignitary gave me an elbow to clear his approach to the Queen.

Benito was behind the Queen's escorts and body guards; he was attentive to the explanations about the paintings given by the curator. In a particular moment, surprisingly, an open space was made around the Queen, who was now facing Benito standing in front of her.

She was the one to approach and greet him: "I see you around all the time following very attentive the explanations. It's a pleasure to meet you, sir." Everybody was crazy to get near the Queen and greet her, but for Don Benito, it was the very Queen who went out of her way to greet him.

Actually given his physical and intellectual stature it was impossible for him to go unnoticed. With Benito Legarda, the economist, the writer, the intellectual giant, the friend, an era comes to an end. He has passed away 100 years after the death of another islander and great Benito, the Spanish writer Benito Pérez Galdós (1843-1920), born in the Canary Islands.

Dear Benito, Ben, Beniting: we are going to miss you so much. —CONTRIBUTED INQ

OTHER MATTERS

NUTS N' BALLS

by PP Boy Guevara, Jr.

Beautiful message must read

In 1923, nine of the wealthiest people in the world met at Chicago's Edge Water Beach Hotel.

Their combined wealth, it is estimated, exceeded the wealth of the Government of the United States at that time. These men certainly knew how to make a living and accumulate wealth.

Attending the meeting were the following men:

1. The president of the *largest steel company*,
2. The president of the *largest utility company*,
3. The president of the *largest gas company*,
4. The president of the *New York Stock Exchange*,
5. The president of the *Bank of International Settlements*,
6. The *greatest wheat speculator*,
7. The greatest *bear on Wall Street*,
8. The head of the *World's greatest Economy* &
9. A member of *President Harding's cabinet*.

That's a pretty impressive line-up of people by anyone's yardstick.

Yet, 25 years later, where were those nine industrial giants?

Let's examine what happened to them 25 years later.

1. The President of the then largest steel company (Bethlehem Steel Corp), *Charles M Schwab, lived on borrowed capital for five years before he died bankrupt.*
2. The President of the then largest gas company, *Howard Hubson, went insane*.
3. One of the greatest commodity traders (Wheat Speculator), *Arthur Cutten, died insolvent.*
4. The then President of the New York Stock Exchange, *Richard Whitney, was sent to jail.*
5. The member of the US President's Cabinet (the member of President Harding's cabinet), *Albert Fall, was pardoned from jail just to be able to go home and die in peace.*
6. The greatest "bear" on Wall Street, *Jesse Livermore committed suicide*.
7. The President of the then world's greatest monopoly, *Ivar Krueger, committed suicide*.
8. The President of the Bank of International Settlement, *Leon Fraser, committed Suicide*.
9. The president of the largest utility company, *Samuel Insull, died penniless*.

What they forgot was how to "make" life while they got busy making money!

Money in itself is not evil; it provides food for the hungry, medicine for the sick, clothes for the needy. *Money is only a medium of exchange.*

We need two kinds of education:

- a) One that teaches us *how to make a living*, and
- b) One that teaches us *how to live*.

There are many of us who are so engrossed in our professional life that we neglect our family, health and social responsibilities.

If asked why we do this, we would reply that *"We are doing it for our family"*.

Yet, *our kids are sleeping when we leave home*. They are sleeping *when we come back home*!! *Twenty years later, we'll turn back, and they'll all be gone, to pursue their own dreams and their own lives*.

Without water, a ship cannot move. *The ship needs water, but if the water gets into the ship, the ship will face existential problems*. What was once a means of living for the ship will now become a means of destruction.

Similarly we live in a time where earning is a necessity but *let not the earning enter our hearts, for what was once a means of living will surely become a means of destruction for us as well.*

So take a moment and ask yourself, "Has the water entered my ship?" I hope not!

Hope the above story will drive all of us in a better direction in life.

"Alone I can 'Say' *but*
together we can 'talk'.

'Alone I can 'Enjoy' *but*
together we can
'Celebrate'.

'Alone I can 'Smile' *but*
together we can 'Laugh'.

That's the BEAUTY of
Human Relations.

We are nothing *without*
each other
